Loo Say Hien

UI / UX DESIGNER · SINGAPORE

Portfolio sayhien@gmail.com +65 8777 7862 LinkedIn

UI/UX Designer with nine years of experience crafting efficient solutions that bridge user needs and business goals. Proficient in translating dense data and complex regulatory frameworks into intuitive, scalable interfaces.

EXPERIENCE

Sep 2025 — Present
MULTI-INDUSTRY

Content Creator & Freelance UX Designer

> **Content Creation:** Using AI-native workflow for content creation, focusing on humorous storytelling and motion graphic to simplify the health niche and to keep viewers engaged.
>
> **Website Design:** Building premium, responsive websites using Framer and Claude Code, handling full-cycle production from layout to high-fidelity animations, AI coded sandbox demos for better understanding of any particular service.

Feb 2025 — Apr 2025
SUSTAINABILITY

UI/UX Designer CONTRACT

Tomie Technologies Pte Ltd

Led the design of an Environmental, Social, and Governance (ESG) module within an ERP system to assist SMEs in monitoring sustainability metrics.

> **Regulatory Frameworks:** Developed unified UI templates for extensive frameworks such as GRI and IFRS, enabling engineering teams to scale complex reporting requirements.
>
> **Data Visualisation:** Designed a high-density dashboard featuring compliance confidence metrics, real-time progress trackers, and user workload management tools.
>
> **System Efficiency:** Created and managed a dedicated design library using auto-layout components to streamline the development of reporting features.

Sep 2020 — Apr 2024
HEALTHCARE · INSURANCE

DocDoc Pte Ltd

Senior UI/UX Designer — Apr 2022 – Apr 2024

> **Insurance:** Worked hand-in-hand with product and engineering to design a new enterprise and consumer health insurance app from scratch, covering account management, claims processing, policy administration, and more, delivering a unified experience across both portals.
>
> **Design Governance:** Built a scalable design system (Angular Material), aligning it with logical data models and cross-department docs for system-wide consistency.

UI/UX Designer — Sep 2020 – Mar 2022

> **Doctor Discovery:** Conducted user research with member reps to uncover pain points, then redesigned their report-generation workflow, cutting steps across a fragmented process.

May 2020 — Jul 2020
HEALTHCARE

UX Designer CONTRACT

Doctor World Pte Ltd

Redesigned the consumer app UI, working with the general manager and software developers.

> **Telemedicine:** Covered telemedicine appointment booking, dispensed medicine tracking with delivery status, appointment booking at Raffles Medical branches, access to medical certificates, and more.

Jun 2017 — Jun 2019
FINTECH

UI/UX Designer

Plus65 Interactive Pte Ltd

Designed investment and remittance apps.

> **Investment Systems:** Led the design for multiple white-label affiliate finance investment platforms for China-based clients, covering administrative portals, member portals with investment credit purchase paths, and marketing websites.
>
> **Remittance Ecosystem:** Designed a remittance system called Swipe, including a customer-facing mobile app with a KYC onboarding path.
>
> **User Research:** Initiated user research programs that raised stakeholder awareness of target audience needs and provided actionable deliverables to guide product vision.
>
> **Hospitality Design:** Collaborated on user research and interface design for the Zazz Hotels platform.

Apr 2016 — Jan 2017
PROPERTY

UI/UX Designer

Singmap Pte Ltd

Designed apps for the construction and building industries.

> **Construction Tech:** Designed a 3D Building Information Modeling (BIM) app that serves as a repository for accurate 3D models used by architects and contractors.
>
> **Immersive Media:** Led UI design for an augmented reality (AR) property showroom app (Mixgo) and a condominium app (Singnect) for facilities reservations, bill payments, and more.

Mar 2014 — May 2015
ECOMMERCE

Web & Graphic Designer

Immensinc Pte Ltd

> **Digital Marketing:** Managed social media strategies and designed eCommerce web solutions for various beauty and F&B brands.
